

Open-ended Questions about Video lessons for integers by Leo

Leo, C. (2017). *Flipped Classroom Pedagogical Model and Middle-Level Mathematics Achievement: An Action Research Study* (Doctoral dissertation, University of South Carolina).

4 Open Questions

Please provide honest answers to the following open-ended questions. Reflect on your learning during the integer unit.

1. What did you think about the video lessons for integers?
2. Did you like the videos better than direct instruction by your teacher?
3. Do you feel you learned well when using the videos?
4. Did you like being able to work at your own pace during class while using the videos?
