

### **Open-ended questions about Attitude by Østerlie**

Østerlie, O. (2018). Adolescents' perceived cost of attending physical education. *Journal for Research in Arts and Sports Education*, 2(3).

Q1: If there is anything that you do not like in PE, what would that be? Why?

Coding Scheme

(1) no cost, (2) perceived costs (curriculum content, instructional conditions/elements, lack of social support/competence, physical discomfort, teacher factor);

Q2: If you had a choice, would you rather not come to PE? Why?

Coding Scheme

(1) attend PE (attend PE with no reason, academic requirement, motivation, benefits of physical activity in PE), (2) not attend PE (not attend PE with no reason, enough physical activity, curriculum content difficult/boring/not useful, instructional conditions, academic conditions/opportunity cost) and (3) it depends/not sure.
